

Capitol Hill House Histories

The Capitol Hill Restoration Society plans to acquire copies of Capitol Hill House Histories and make them available through the CHRS web page. The first histories will be mounted in early 2012 as non searchable pdf files. However, plans are underway to make them searchable by the end of the year.

The original file structure is searchable by street from the list below, arranged alphabetically, then by quadrant and house number.

If you have an electronic copy of a house history, please submit it to the web master at chrs420.org. If you have a paper copy please contact Paul Cromwell via e-mail (paulcromwell@verizon.net) or phone: 202-543-7530.
